Signature Document Redaction

This release includes a system setting to redact signature documents as a part of redacted PCRs for the QA Portal and when generating a Redacted PCR for faxing or review.

A system setting has been added to enable/disable signature documents for Redacted PDFs:

System Settings

Login Security	PCR Data	Applications	Documents	Other	Allowed Websites
----------------	----------	--------------	-----------	--------------	------------------

1 entries (103 total)

Feature

▼ TripTix PDF

Include Signature Documents on Redacted PDF ⓘ **On** Off

When this setting is set to OFF, signature documents will not be included in redacted PDFs generated in redacted groups in the QA portal:

Home	Run Records	Records Exchange	Requests	Reports
Recent Records	Pending Review	Corrections	Addendum	QA Portal

or when generating a PDF with Redact Data selected.

Select Content

- Transfer of Care
- Run Record
 - Signature Card
 - EKG
 - First Responder Report
 - Redact Data

When set to ON, Redacted PDFs in these areas will include signature documents.
